Care and Treatment required _____

No Treatment required at this time I recommend a checkup in about months

The NHS provides all the treatment necessary to secure and maintain your oral health. There are some treatments (mainly cosmetic) that are not normally available under the NHS, and you may choose to have these provided privately. You may also choose to have some treatment provided privately as an alternative to NHS treatment. The dentist will discuss these options with you so that you can make an informed choice.

Charge band for NHS treatment 1 2 3

Charge for NHS treatment	£ <input style="width: 80px;" type="text"/>	I understand the nature of the proposed NHS treatment services and accept those services and the associated fees as detailed.	Patient's signature <div style="border: 1px solid black; height: 20px; width: 100%;"></div>
Charge for Private treatment	£ <input style="width: 80px;" type="text"/>	I understand the nature of the proposed private treatment services and accept those services and the associated fees as detailed.	Patient's signature <div style="border: 1px solid black; height: 20px; width: 100%;"></div>

Should it become necessary to alter this treatment plan, you will be advised of the changes and any amendment to the cost.

What NHS dental care means to you

Emergency arrangements

Whenever possible please contact us about urgent treatment during normal surgery hours. If you need to be seen the same day, please get in touch as early in the day as possible. If an emergency arises out of hours, you can call NHS 111. They can give you details of out-of-hours dental services in your area.

Replacements free of charge

If you are 18 or over and a filling, root filling, veneer, inlay or crown provided by me under the NHS within the last 12 months has to be replaced, you will not be charged if you return to me, unless:

- a) the treatment was temporary; or
- b) it was provided against my advice; or
- c) the replacement is necessary because of accident; or
- d) a different treatment is necessary because a satisfactory replacement is not possible.

This NHS cover does not apply to any private treatment you may have.

Dental treatment charges

I want you to understand the treatment being offered and any charge which may apply. Overleaf is a treatment plan and an estimate of the cost. Within 2 months of completion of the course of treatment detailed overleaf, should you require further NHS treatment in either the same or lower charge band, you will not normally need pay again.

Please ask if you do not understand this or need any further information.

Treatment on referral

With your agreement, it may be necessary to refer you to another dentist under NHS arrangements, for part of your course of NHS dental treatment. Where this happens you will not be asked to pay a further charge for your NHS dental treatment: only one charge will be made by your referring dentist, as outlined in the treatment plan overleaf.

What the NHS will provide

The NHS provides all necessary dental care and treatment. There are some treatments (mainly cosmetic) which are not available under the NHS, and you may choose to have these privately. You may also choose to have some treatment privately as an alternative to NHS treatment. If you wish to have some private treatment then I shall give you a written estimate beforehand, on this treatment plan.

Paying for NHS treatment

You must pay the statutory charge for NHS dental treatment, unless you are entitled to free or reduced cost NHS dental services. Details of what entitles you to free or reduced cost dental treatment is shown below.

THERE IS NO CHARGE:

If on the first day of treatment:

- you are under 18 years of age
- you are under 18 and in full-time education
- you are pregnant
- you have had a child in the last 12 months

If during the course of treatment you receive, or are included in an award (as a claimant, partner, or dependent person under 20) of:

- **Income Support** (Incapacity benefit and Disability Living Allowance does **NOT** count)
- **Income-based Jobseeker's Allowance** (Contribution-based does **NOT** count)
- **Income-related Employment & Support Allowance** (Contribution-related does **NOT** count)
- **Pension Credit Guarantee Credit** (Savings Credit on its own does **NOT** count)
- **Universal Credit and meets the criteria.** *Find out more at www.nhsbsa.nhs.uk/UC*

If you are named on one of the following certificates that are valid during your course of treatment:

- **HC2 Certificate**
- **NHS tax credit exemption certificate/card** (or entitled to one)

ONLY THE BENEFITS/CERTIFICATES LISTED ABOVE ENTITLE YOU TO FREE NHS DENTAL SERVICES

THERE IS A REDUCED COST:

- If you are named on an HC3 certificate that is valid during your course of treatment

If you feel you would benefit from help with NHS charges in the future, you may wish to make an application to the NHS Low Income Scheme which provides full or partial help with costs.

To find out more about the NHS Low Income Scheme or for more information on help with health costs, please visit www.nhs.uk/healthcosts

Cancelling appointments

If you have to cancel an appointment, please give as much notice as possible in order that it may be offered to someone else. If you miss appointments I may be unable to provide further treatment.

Regular care

Taking good care of your teeth is important. Come and see me regularly for checkups and advice. Some people need to see their dentist more than others and I shall advise you when to return next.

Please keep this document safe: it explains how to use the NHS dental services and what to do in an emergency.
